FOR IMMEDIATE RELEASE-

Storage Engine Inc. Certified as Top Performer

TINTON FALLS, NJ, March 7, 2006--Storage Engine, Inc., an innovative provider of fault tolerant enterprise data storage and document imaging solutions, today announced that it has been certified as a top performer by an independent evaluation firm. This certification was based on the Past Performance Evaluation (PPE) responses of its customers conducted by Open Ratings. Storage Engine Products and Services received a PPE score of 90/100, demonstrating outstanding customer satisfaction relative to similar companies in its industry.

Each year, Open Ratings helps thousands of companies secure contracts with large purchasing organizations by verifying performance with the Past Performance Evaluations. The customer satisfaction metrics that are evaluated are:

Reliability	Delivery /timeliness	Quality
Cost	Business relations	Personnel
Order Accuracy	Customer support	Responsiveness

"Storage Engine is very pleased to see independent verification of the solutions and services we offer that ensures access and control of your information (data storage). Our growth further demonstrates that we are delivering value to our growing list of satisfied clients, now independently verified" said Gregg Azcuy, President of Storage Engine Inc.
