FOR IMMEDIATE RELEASE-

**West Windsor Township Achieves DARM certification  
with Storage Engine**

**TINTON FALLS, NJ, November 17, 2006**--Storage Engine, Inc., an innovative provider of fault tolerant enterprise data storage and document imaging solutions, today announced that yet another of its imaging users has achieved certification by the NJ State Records Committee through the Division of Archives and Records Management (DARM). DARM holds in trust the public records of New Jersey: one of the oldest and most vital functions of government. The division has statutory authority to ensure the security, integrity, and efficiency of record-keeping by state and local public agencies, and to preserve the rich documentary heritage of New Jersey and its people.

Storage Engine has been working with West Windsor Township for the past several years and is proud of their accomplishment.

**About Storage Engine:**

Storage Engine, Inc., is an innovative provider of data storage solutions and document imaging solutions for enterprises and departments that serve a wide range of business and government markets along with a wide range of other services to enable the capture, tracking, storing, sharing, replication and utilization of information assets, with compliance, cost effectively.
