FOR IMMEDIATE RELEASE-

New Jersey Technology Fellow Awarded to SEI

Tinton Falls, NJ--- February 18, 2008: Storage Engine Inc. announced today that it has been awarded by the New Jersey Commission on Science and Technology a New Jersey Technology Fellowship to work at Storage Engine, Inc. After careful review, the Commission believes that his Technology Fellow will further assist Storage Engine, Inc. with university ties and industry collaboration while advancing the transfer of technology to the marketplace.

Storage Engine is very pleased to have been selected as a recipient of a NJ Technology Fellow by the New Jersey Commission on Science and Technology. We will apply this Doctor of Medical Informatics into our medical information practice to assist us in developing better ways to control, collaborate and access patient records with security. Storage Engine will be collaborating with a leading health care provide in New Jersey to perfect solutions needed.

About Storage Engine:

Storage Engine, Inc., is a leading responsible provider of data storage solutions and document imaging solutions for enterprises and departments that serve a wide range of business and government markets along with a wide range of other services to enable the capture, tracking, storing, sharing, replication and utilization of information assets, with compliance, cost effectively.

Storage Engine competes against large corporations including EMC (NYSE-EMC), Network Appliance (NASDAQ-NTAP), Sun Microsystems (NASDAQ-JAVA) and Hewlett Packard (NYSE-HP), among others.

For more information, visit www.storageengine.com, or call 1-866-734-8899.

About New Jersey Commission on Science and Technology:

Established in 1985, the Commission is responsible for the development and oversight of policies and programs promoting science and technology research and entrepreneurship in New Jersey.
