FOR IMMEDIATE RELEASE-

Financial Firm Orders Synchronism for Compliance

Tinton Falls, NJ--- June 16, 2009: Storage Engine announces another order in excess of \$300,000 to solve the data storage need of a financial firm. With their growing need for data storage, but also increased compliance needs they have selected Synchronism and data storage to solve all their needs and requirements. Synchronism will provide them with a solid foundation to grow, centralize and virtualize their multi-vendor data storage environment. We are proud to add another user to our growing installed base of enterprise users.

About Storage Engine:

Storage Engine, Inc., is a leading responsible provider of data storage solutions and document imaging solutions for enterprises and departments that serve a wide range of business and government markets along with a wide range of other services to enable the capture, tracking, storing, sharing, replication and utilization of information assets, with compliance, cost effectively.

Storage Engine competes against large corporations including EMC (NYSE-EMC), Network Appliance (NASDAQ-NTAP) and Hewlett Packard (NYSE-HP), among others.
